Of the officers now working in the Medical Dept the Senior Surgeon may find one about whose medical work, he is not quite satisfied but who may nevertheless be a competent store-keeper. If one such officer is employed as store-keeper, a vacancy will be caused to put Mr Senevilla in and there will be no necessity to retain him as a temporary officer and thereby follow a course which is not quite free from objection.

One of these two temporary appointments was in connection with the Mavelikave works and it has been done away with. The officers however have continued. It does not seem as if there will be any vacancy among Sub Apt Surgeons in the near future. It was recently proposed by the Senior Surgeon to confirm these two officers as Sub Apt Surgeons but he was informed that his recommendation could not be accepted till he made out a case for increasing the sanctioned strength of Sub Apt Surgeons. There is another proposal to appoint Mr. Krishnaswamiengar and Mr. Karve as Apt Surgeons and if that is sanctioned, the sanctioned strength of Apt. Sir,

In reply to your letter No. 10865/Med.208-09-2, dated, 8th June 1910, I have the honor to say that Mr. Kuruvilla's services can very well be retained in the Medical Department. For example, it has been customary to place Birur in charge of a young gazetted officer. If Mr. Kuruvilla is posted there, it will give me a Hospital Assistant whom I very badly want. I think an effort should be made to retain Mr. Kuruvilla's services. We cannot have too many men of his stamp. I would, therefore, propose to retain him as a temporary officer till a vacancy occurs in the Medical Department. I am precluded from employing him in the Sanitary Department owing to his not having a special training in Health Work.

2. As to appointing him to be Store Keeper, I do not think it in any sense advisable. It is a very bad training for a young medical man. I am aware that, in Madras a young officer is often appointed to be Store-Keeper, but there they have always a picked senior Assistant Surgeon on the permanent staff who is immediately responsible for everything. So there is no parallelism be-

between the two appointments at all. An active efficient Medical Officer is in a way thrown away in the Medical Stores, and for our small concern I am sure the very best thing to do is to appoint a retired Military Assistant Surgeon who has had experience in such matters and understands discipline, and he does not cost much. If a senior service officer is appointed, it will cost a good deal and he would be a far more useful public servant if kept in the active pursuit of his profession.
